Product/Service
Photo

Floresta Tanzania is a Christian development organization that transforms lives in rural areas where poverty and environmental degradation intersect. We equip impoverished farming families to change their circumstances, provide for their children, and live with God-given hope and dignity. We do this through sustainable agriculture training, land restoration, savings-led microfinance, church mobilization, and local leadership development. Floresta is part of international network of NGOs in the Plant With Purpose family, its national headquarters is in Moshi Kilimanjaro

Vision

To see rural communities in need empowered to improve the quality of their lives in a sustainable way and in harmonious relationship with God and his creation

3.0 Mission

Floresta Tanzania, a Christian nonprofit organization that reverses deforestation and poverty in Tanzania by transforming the lives of the rural poor.

	<p>4.0 Values</p> <p>Accountability, transparency, Teamwork, effective communication, mutual respect, love, effective leadership.</p>
